PCI - Payment Card Industry

- **BUILD & MAINTAIN A SECURE NETWORK**
- **MAINTAIN A VULNERABILITY MANAGEMENT PROGRAM**
- **REGULARLY MONITOR & TEST NETWORKS**
- **PROTECT CARDHOLDER DATA**
- **IMPLEMENT STRONG ACCESS CONTROL MEASURES**
- **MAINTAIN AN INFORMATION SECURITY POLICY**

What is PCI?

A typical security breach costs small business merchants $25,000 - $50,000

PCI is a set of requirements designed to ensure that ALL companies that see, process, store, or transmit credit card information maintain a secure environment.

CALL US TODAY!

PCI Compliance is a team effort - we can help you every step of the way.

Install & maintain a firewall to protect cardholder data.

Do not use vendor-supplied defaults for system passwords and other security parameters.

Protect stored cardholder data.

Encrypt transmission of cardholder data across open, public networks.

Use and regularly update anti-virus software on all systems commonly affected by malware.

Develop and maintain secure systems and applications.

Restrict access to cardholder data by business need-to-know.

Assign a unique ID to each person with computer access and restrict physical access to cardholder data.

Track and monitor all access to network resources and cardholder data.

Regularly test security systems and processes.

Maintain a policy that addresses information security.

98%
of data breaches occur within small businesses.

Our PCI team is dedicated to helping you comply with these standards & plan ahead.
